Time Tracker - HRMS

An affordable Human Resources Management System designed with your business in mind.

Time Tracker will empower you to effectively track and manage your labour costs, keeping track of all labour related data, including late time, breaks, lunch and overtime!

Designed to work in the harshest of environments.

Easy to use centralized database works on your existing network with minimal adaptation, featuring real time information at your fingertips.

*Available in bar code or
RFID - ("tap & go") readers*
